<td>Popular bathing sites should include Makarewa River at Wallacetown.</td>
<td>Restricted area in the plan should be a percentage of landholding rather than a set number of hectares. The plan currently reads like a 50 hectare farm can intensively winter on 100% of the property, and a 1000 hectare farm can intensively winter on only 5%.</td>
<td>Happy to support a move to requiring a farmer to seek a consent to farm, however the consent application process needs to be streamlined and simplified. The process should be cheap or free, as automated as possible (on line), and simple to lodge and administer.</td>
