Submission on proposed Southland Water and Land Plan

Email your completed submission to policy@es.govt.nz by 5.00pm Monday 1st August 2016

Alternatively, you can post your signed submission to:
Southland Water and Land Plan
Environment Southland
Private Bag 90116
Invercargill 9840

You can also deliver your submission to Environment Southland’s North Road office or fax it on 03 211 5252.

Full Name: GREGORY STEPHEN CLEWATER
Organisation: C S KAHL CLEWATER
* the organisation that this submission is made on behalf of
Postal Address: 360 WAIMUWA ROAD
NO.4 NO.6 E ".
Email: clewater@pgfreight.co.nz
Contact name and postal address for service of person making submission (if different from above):

Public hearing
Please choose one of the following options:
☐ I do not wish to be heard in support of my submission; or
☐ I do wish to be heard in support of my submission; and if so,
☐ I would be prepared to consider presenting my submission in a joint case with others making a similar submission at any hearing

Trade Competition
If you could gain an advantage in trade competition, your submission must only include matters which affect the environment.

Please tick the sentence that applies to you:
☐ I could not gain an advantage in trade competition through this submission; or
☐ I could gain an advantage in trade competition through this submission.

If you have ticked this box please sign below to declare that you are directly impacted by an adverse environmental effect.

Signature: Date: 1-8-16

(Signature of person making submission or person authorised to sign on behalf of person making the submission)

Please note:
(1) all information contained in a submission under the Resource Management Act 1991, including names and addresses for service, becomes public information.

Form 5: Submissions on a Publicly Notified Regional Plan under Clause 6 of Schedule 1 of the Resource Management Act 1991

I agree with farm management Plans Appendix N

I disagree with consultants being involved. It is has a great opportunity to form a farm plan which farmers can fill out themselves. Hence no consultants - keep farm costs down. Our farminess is made up of 2 properties $5000 @ $10 000.00. Which in current economic climate but huge financial stress on this business. If you do the management yourself you are more inclined to understand the content and achieve the environment policies

Physiographic Zone Policies (360 Aluminium Road)

The plan in its current form (area Liggidie Marine Terrace) would allow this property to intensely produce up to 50 units per year if we could ensure the total yield which would go against what the plan is trying to achieve. The area of events only grazing should be calculated as a % of the total area.

Rule 23b.1x Overland water

In a 25-95mL rain event over 24-48 hours at 360 Aluminium Road our south boundary water catchment is Aluminium Road w/catchment through a culvert. This storm water is often discolored as it flows into our first paddock containing sediment.

Rule 25 A11 Cultivation of land 20° or more I strongly oppose.

Please refer to Kelvin Smith which showed sediment + nutrient reduction by way of grazing. The direction is start grazing away from waterways and keep buffer at 50m with regards to cultivation. Oppose getting a consent, due to time delays + extra costs.
