### Rule 23 B (vii).

<table>
<thead>
<tr>
<th>Support</th>
<th>Oppose</th>
<th>Amend</th>

</thead>
</table>

**Reasons:**
A huge amount of productive land is lost through the buffer zones. If grass is grazed from top to bottom of paddocks, some of the contamination is filtered through crops.

**Would like to see buffer distance reduced to:**
- 0-40 stay at 3m.
- 40-160 be 6m.
- greater than 16, 10m.

### Appendix N

<table>

<th>Oppose</th>

</table>

**Reasons:**
The cost and time to prepare a plan that may only be used when requested. The privacy of plans will have access to it? What is it going to be used for. Don't like my business to be controlled by Environment Southland.

**Trust the farmers that they will obey the rules:**

### In General

<table>
<thead>
<tr>
<th>Support</th>
<th>Oppose</th>
<th>Amend</th>
</tr>

</table>

**Reasons:**
The huge cost to administer and police the land. Under plan, the cost of the consent. Feel that our Environment Southland rates will increase to ridiculous levels.
