Reasons:

**EXAMPLE**

Popular bathing sites should include Makarewa River at Wallacetown.

- Support
- Oppose
- Amend

Reasons: - Paddocks are cultivated for various reasons but usually to create a large amount of feed per hectare, by restricting 20m on a perimeter or from a creek results in a significantly less amount of feed.

- Support
- Oppose
- Amend

Reasons: By locking us into the last 3 yrs average we have no flexibility as farmers to change what we do on our farm, change is what keeps farmers innovative and helps us continue to learn often by trial and error.

- Support
- Oppose
- Amend

Reasons: I would like E/S to abolish these restrictions. Totally impractical to ask a 2000 ha property to only cultivate 50 ha for winter.

<th>Oppose</th>
<th>Amend</th>

<tbody>
<tr>
<td>☑️</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Reasons:
- We haven't been presented facts about how excluding animals in summer months will make our water pristine or benefit aquatic life or creek beds.
- The associated costs of fencing and providing a water system.

- Provide evidence needed
- Fund the fencing and stock water system.

- Minimise at every possible rule the need for consenting process.

The decision I would like Environment Southland to make is:

<table>
<thead>
<tr>
<th>Support</th>
<th>Oppose</th>
<th>Amend</th>

(Provide precise details of the outcomes you would like to see for each provision. The more specific you can be the easier it will be for the Council to understand the outcome you seek.)
